

# MISSION VALLEY REGIONAL OCCUPATION PROGRAM

## Automotive Technology 2

### Course Outline

**1. Course Title:**

Automotive Technology 2

**2. CTE Career Sector and Pathway:**

Transportation Sector, 221 Systems Diagnostics, Service, and Repair

**3. CALPADS Number:**

8532

**4. Job Titles/DOT Codes:**

|   |             |
|---|-------------|
| Automotive Mechanic                     | 620.261-010 |
| Automobile-Mechanic Helper              | 620.684-014 |
| Automobile-Repair-Service Estimator     | 620.261-018 |
| Automotive Technician, Exhaust Emission | 620.281-014 |
| Brake Adjuster                          | 620.684-018 |

**5. Course Length:**

At the MVROP Center, this is a year-long course which meets 2 hours each day/360 hours and is associated with ten credits each semester.

At James Logan High School and Washington High School, this is a year-long 1 hour course each day/180 hours and is associated with 5 credits each semester

**6. Course Description:**

This competency-based course prepares students for entry-level positions in the Automotive Industry. Included in the course are general auto repair, brakes, steering and suspension, electrical systems, and engine performance. Students receive hands-on experience in auto shop operations, tool usage, safety procedures, equipment operation and customer service.

New introduction of Electric Vehicles proper use of handling high output batteries, proper safety equipment used in conjunction with electric vehicles.

**7. Hours:**

|   |           |                                       |           |
|---|-----------|---------------------------------------|-----------|
| James Logan & Washington High School<br>(JLHS/WHS): |           | Mission Valley ROP Center (ROP) Class |           |
| Class   | 180 hours | Class                                 | 360 hours |
| CC/CVE  | 0 hours   | CC/CVE                                | 0 hours   |
| Total   | 180 hours | TOTAL                                 | 360 hours |

**Date of Revision:** July 2023

**Approved by Advisory:**

**8. Articulation:**

This course is articulated with Universal Technical Institute.

**9. UC/CSU A-G Eligibility:**

This does not meet UC/CSU a-g requirements.

**10. Instructional Materials**

Automotive Maintenance and Light Repair 2nd Edition, Kirk VanGelder, CDX Learning Systems, 2020

Automotive Technology, 5th edition, Halderman, Pearson Publishers 2016

**11. Course Outline:**

Upon successful completion of this course, students will be able to demonstrate the following skills necessary for entry-level employment.

| Unit                             | Content Area Skills   | Hours                            |
|----------------------------------|---|----------------------------------|
| Integrated Throughout the course | <b><u>Workplace Basic Skills &amp; Behaviors</u></b><br>(Necessary skills for any occupation – <a href="#">MVROP SLO #1</a> )<br>Learner Outcomes:<br>A. Apply skills learned in class.<br>B. Analyze information and make decisions.<br>C. Communicate verbally and in writing.<br>D. Work independently and as a team member in a diverse workplace.<br>E. Work reliably, responsibly, and ethically.   | Integrated Throughout the course |
| Integrated throughout the course | <b><u>Career Technical Skills</u></b><br>(Occupational competencies – <a href="#">MVROP SLO #2</a> )<br>Learner Outcomes:<br><br><b>A. Technology.</b><br>a. Select, operate, maintain, and troubleshoot a variety of technologies (tools, machines, and computers).<br>b. Use computers to process information for the numerical system.<br><br><b>B. Safety standards</b><br>a. Comply with personal and environmental safety practices associated with clothing, eye protection, hand tools, power equipment, and proper ventilation.<br>b. Comply with safety and environmental practices associated with handling, storage, and disposal of chemicals or materials in accordance with local, state, and federal regulations. | Integrated throughout the course |

|  |  |                                  |
|--|--|----------------------------------|
|  | <b>C. Business Functions</b> <ol style="list-style-type: none"> <li>Identify, organize, plan, and manage time, materials, and facilities.</li> <li>Recognize purpose for administration, operations, marketing, personnel, production, distribution, and services.</li> </ol>  |                                  |
| <b>MANDATORY<br/>FOR ALL ROP<br/>COURSES</b> | <b><u>Career Path Strategies</u></b><br>(Occupational competencies – <a href="#">MVROP SLO # 3</a> )<br>Learner Outcomes: <ol style="list-style-type: none"> <li>Develop a plan to achieve career goals.             <ol style="list-style-type: none"> <li><b><i>Create a Career Portfolio</i></b> <ol style="list-style-type: none"> <li>Cover letter</li> <li>Application</li> <li>Resume</li> <li>Thank you letter</li> </ol> </li> </ol> </li> <li>Use effective job search strategies</li> <li>Demonstrate an awareness of the importance of lifelong learning.</li> </ol>   | Integrated throughout the course |
| <b>Unit</b>                                  | <b>Course Curriculum</b>   | <b>Hours</b>                     |
| 1  | <b><u>Introduction to Automotive Technology</u></b><br>Learner Outcomes: <ol style="list-style-type: none"> <li>The Automobile             <ol style="list-style-type: none"> <li>Parts, Assemblies, and Systems</li> <li>Hybrid Vehicle</li> <li>Full Electric Vehicles</li> </ol> </li> <li>Basic Hand Tools             <ol style="list-style-type: none"> <li>Tool Rules</li> <li>Tool Storage</li> <li>Wrenches, Screwdrivers, Pliers, Hammers, Chisels and Punches,</li> <li>Files, Saws</li> <li>Holding Tools</li> <li>Cleaning Tools</li> <li>Probe and Pickup Tools</li> <li>Pry Bars</li> </ol> </li> <li>Power Tools and Equipment             <ol style="list-style-type: none"> <li>Compressed-Air System</li> <li>Air Tools</li> <li>Electric Tools</li> <li>Hydraulic Tools</li> <li>Shop Equipment - including but not limited to the safe and proper usage of vehicle hoists and service jacks.</li> </ol> </li> </ol> | 80                               |

|   |   |    |
|---|---|----|
|   | <p>D. Auto Shop and Safety</p> <ul style="list-style-type: none"> <li>a. Auto Shop Layout</li> <li>b. Shop Safety</li> <li>c. Types of Accidents</li> <li>d. General Safety Rules</li> <li>e. Customer Relations</li> </ul> <p>E. Basic Electricity and Electronics</p> <ul style="list-style-type: none"> <li>a. Electricity</li> <li>b. Automotive Electronics</li> <li>c. Automotive Wiring</li> <li>d. Basic Electrical Tests</li> <li>e. Scan Tools</li> </ul> <p>F. Vehicle Maintenance, Fluid Service, and Recycling</p> <ul style="list-style-type: none"> <li>a. Lubrication Service</li> <li>b. Vehicle Maintenance</li> <li>c. Fluid Service</li> <li>d. Filter Service</li> <li>e. Chassis Lubrication</li> <li>f. Service Intervals</li> <li>g. General Inspection and Problem Location</li> <li>h. Recycling and Disposal of Auto Shop Wastes</li> </ul> <p>G. Basic Online Service information</p> <ul style="list-style-type: none"> <li>a. Use of Alldata or Shop Key type online information</li> <li>b. Service information for repair and service procedures.</li> <li>c. Identify specific data information for vehicle specifications.</li> </ul> |    |
| 2 | <p><b><u>Label Identification</u></b></p> <p>Learner Outcomes:</p> <ul style="list-style-type: none"> <li>A. Fluid Labels</li> <li>B. Emission Labels</li> <li>C. Vehicle Identification Number</li> </ul>  | 4  |
| 3 | <p><b><u>29-Point Inspection</u></b></p> <p>Learner Outcomes:</p> <ul style="list-style-type: none"> <li>A. Engine</li> <li>B. Transmission</li> <li>C. Suspension</li> <li>D. Tires</li> <li>E. Safety Belts and Interior</li> <li>F. Lighting Systems</li> </ul>  | 6  |
| 4 | <p><b><u>Road Hazard/ Tire Replacement</u></b></p> <p>Learner Outcomes:</p> <ul style="list-style-type: none"> <li>A. Road Hazards</li> </ul>   | 10 |

|   |   |    |
|---|---|----|
|   | <ul style="list-style-type: none"> <li>B. Freeway Hazards</li> <li>C. Car Jack Usage</li> <li>D. Flares and Signs</li> <li>E. Common Sense</li> </ul>   |    |
| 5 | <p><b><u>Engines</u></b></p> <p>Learner Outcomes:</p> <ul style="list-style-type: none"> <li>A. Advanced Engine Fundamentals               <ul style="list-style-type: none"> <li>a. Engine Operation</li> <li>b. Engine Bottom End</li> <li>c. Engine Top End</li> <li>d. Engine Front End</li> </ul> </li> <li>B. Engine Design Classifications               <ul style="list-style-type: none"> <li>a. Engine Classifications</li> <li>b. Cylinder Arrangement</li> <li>c. Alternative Engines</li> <li>d. Typical Automotive Engines</li> </ul> </li> <li>C. Advanced Engine Diagnostic Testing               <ul style="list-style-type: none"> <li>a. Compression Tests</li> <li>b. Cylinder Leakage Tests</li> <li>c. Engine Vacuum Tests</li> </ul> </li> </ul>   | 20 |
| 6 | <p><b><u>Cooling and Lubrication Systems</u></b></p> <p>Learner Outcomes:</p> <ul style="list-style-type: none"> <li>A. Advanced Cooling System Fundamentals               <ul style="list-style-type: none"> <li>a. Cooling System Functions and Operations</li> <li>b. Cooling System Types</li> <li>c. Understand the necessity of parts list contained in a R/O</li> <li>c. Understand the process necessary for additional approved work.</li> <li>d. Understand the closure process of a R/O</li> <li>e. Review the “Write it Right” standards of state BAR (2018).</li> </ul> </li> </ul> | 20         |
|    | <b>Total Hours</b>  | <b>360</b> |

## 12. Instructional Strategies

|                   |                     |                             |
|-------------------|---------------------|-----------------------------|
| Lecture           | Reading Assignments | Demonstration               |
| Group Discussion  | Oral Questioning    | Team Learning               |
| Brainstorming     | Multimedia          | Simulation                  |
| Projects          | Hands-on Practice   | Virtual Reality             |
| Written Tests     | Presentations       | Skill Practical Assessments |
| Performance Exams | Portfolios          |                             |

### **13. Certificate Competency List:**

#### *Career Preparation Standards:*

- Apply workplace advanced skills and behaviors
- Practice occupational safety standards
- Demonstrate effective job employment skills

#### *Career Technical Skills:*

- Demonstrates safe working conditions in classroom and shop
- Identify common automotive tools and equipment
- Demonstrate proper usage of tools and equipment
- Perform vehicle safety inspection
- Check fluids accurately and describe their operational systems
- Perform engine oil and filter service and chassis lubrication
- Demonstrate proper use of scan tools
- Perform tire rotation, repair and replacement
- Perform wheel bearing service
- Perform disk brake service
- Perform drum brake service
- Complete repair order accurately
- Demonstrate part removal and replacement
- Use appropriate methods for disposal of hazardous waste material
